ICPS Exhibit Hall

BOOTH 17

www.psychologicalscience.org

The Association for Psychological Science (APS) is an international, nonprofit organization with more than 30,000 members from over 90 countries. APS members include the world’s leading psychological scientists — academics, clinicians, researchers, teachers, and administrators — who work to promote, protect, and advance the interests of scientifically oriented psychology in research, application, teaching, and the improvement of human welfare.

BOOTH 18

www.artinis.com

Artinis Medical Systems is a Dutch innovative company producing near infrared spectroscopy equipment (NIRS) to measure both brain and muscle tissue oxygenation levels, with affordable and fit-to-purpose solutions. Artinis produces flexible, versatile and easily upgradeable laboratory equipment like the Oxymon MkIII. Measurements can be taken from 1 of up to over a 100 channels to cover the whole head. Artinis also produces wireless NIRS equipment like the OctaMon, ideally suited for wireless measurements on the (pre)frontal brain. This will work perfectly for dual tasking, hyperscanning or BCI purposes.

For posters and full program details, use the ICPS app (search for “ICPS 2017” in the app store) or visit www.icps2017.org/program

freud-me.com

Bringing “Freud” Back to Vienna — Counsel Yourself as “Dr. Sigmund Freud” in Immersive Virtual Reality

We often talk to ourselves on the inside in order to help resolve our personal problems, although always from the perspective of being ourselves. Here we show how you can talk to yourself but where the one that you talk to is represented as another person, embodied with you in Virtual Reality — in this case as “Dr. Sigmund Freud” or as “Dr. Fritz Perls.” Previous research (Osimo et al., 2015 Scientific Reports) has shown that this form of embodied perspective taking can have positive therapeutic effects. Participants will have the opportunity to experience a version of this in VR during the exhibition.

**BOOTH 9**

www.frontiersin.org

Frontiers publishes some of the largest and most-cited journals in their fields. Established in 2007, Frontiers drives innovations in peer review, post-publication review, impact metrics, and an ecosystem of open-science tools. Frontiers has published over 50,000 articles across 57 journals and 430 disciplines, which receive 8 million monthly views, and are supported by over 290,000 researchers.
