CLINICAL PSYCHOLOGICAL SCIENCE

Clinical Psychological Science (CPx) publishes advances in clinical science and provides a venue for cutting-edge research across a wide range of conceptual views, approaches, and topics. The Journal encompasses many core domains that have defined clinical psychology, but also boundary-crossing advances that integrate and make contact with diverse disciplines and that may not easily be found in traditional clinical psychology journals. Among the key topics are research on the underlying mechanisms and etiologies of psychological health and dysfunction; basic and applied work on the diagnosis, assessment, treatment, and prevention of mental illness; service delivery; and promotion of well-being.

CURRENT DIRECTIONS IN PSYCHOLOGICAL SCIENCE

Current Directions in Psychological Science (CDPS) publishes reviews by leading experts covering all of scientific psychology and its applications. Each issue of Current Directions features a diverse mix of reports on various topics such as language, memory and cognition, development, the neural basis of behavior and emotions, various aspects of psychopathology, and theory of mind. These articles allow readers to stay apprised of important developments across subfields beyond their areas of expertise and bodies of research they might not otherwise be aware of. The articles in Current Directions are also written to be accessible to non-experts, making them ideally suited for use in the classroom as teaching supplements.

Perspectives on Psychological Science (PPS) publishes an eclectic mix of provocative reports and articles, including broad integrative reviews, overviews of research programs, meta-analyses, theoretical statements, book reviews, and articles on topics such as the philosophy of science, opinion pieces about major issues in the field, autobiographical reflections of senior members of the field, and even occasional humorous essays and sketches. Perspectives contains both invited and submitted articles. An article in 2009 investigating correlative analyses commonly used in neuroimaging studies is still reverberating throughout the field, and a recent special issue of Perspectives, featuring prominent researchers writing about what they consider to be “The Next Big Questions in Psychology,” continues to shape the future trajectory of the discipline.

PSYCHOLOGICAL SCIENCE IN THE PUBLIC INTEREST

Psychological Science in the Public Interest (PSPI) is a unique journal featuring comprehensive and compelling reviews of issues that are of direct relevance to the general public. These reviews are written by blue ribbon teams of specialists representing a range of viewpoints and are intended to assess the current state-of-the-science with regard to the topic. Among other things, PSPI reports have challenged the validity of the Rorschach and other projective tests; have explored how to keep the aging brain sharp; and have documented problems with the current state of clinical psychology. PSPI reports are regularly featured in Scientific American Mind and are typically covered in a variety of other major media outlets.

ARTICLE REPRINTS, E-PRINTS, TRANSLATED REPRINTS
Reprints of articles discussing specific products, therapies, or topics related to your company serve as excellent marketing support materials for conference handouts, collateral sales materials, and direct mail pieces.
SAGE can also provide e-prints of articles to post to your website, intranet, or to distribute via e-mail.
SAGE can also arrange for translation of reprints into the local language of your target audience.

SUPPLEMENTS
Peer-reviewed journal supplements provide you with a credible, objective means to publish themed articles on topics related to your company’s business.

Supplements mail with the regular issues of the journal to the entire readership and are also posted online. You may include a Continuing Education component to enhance value.
All supplement topics need to be preapproved by the editor, and all articles must undergo peer review.

TRANSLATED REGIONAL EDITIONS
Partner with us to produce regional editions based on select journal articles translated to the local language in the geographic region of your choice.

SPONSORED SUBSCRIPTIONS
Target the mailing list of your choice by sponsoring subscriptions to the journal.

REQUIREMENTS FOR ELECTRONIC DELIVERY:

General Instructions:
A High Resolution Press-Ready PDF is required for all electronic ad submissions. All fonts must be embedded. Minimum required image resolution is 300 dpi for color or grayscale images and 900-1200 dpi for line art (1-bit) images. All color files must be created and submitted to publisher in CMYK color mode. Publisher will convert ads submitted in RGB but is not responsible for color reproduction on these ads. 2-color ads (standard) must be provided as black plus 100% cyan, magenta, or yellow.

Image Size/Crop:
Digital art files should be cropped to remove non-printing borders. Art should be created or scaled to the size intended for print. Image orientation should be the same as intended for print. For ads that are intended to run off the page, a 1/8” minimum bleed is required on all sides.

Proof Instructions:
• Color Ads: An identifiable SWOP-certified proof (Specifications Web Offset Publications—www.swop.org) must be supplied with the final digital file. If a SWOP-certified proof is not supplied, then the publisher cannot guarantee correct reproduction of color. Any omissions or color deviation from a submitted proof, other than a SWOP-compliant proof, will not warrant compensation to the advertiser.

• B&W Ads: A hard-copy proof the same size as the digital art must be supplied with the final digital file.

File Submission Instructions:
Please supply files on one of the following media: CD-ROM or e-mail. Please include a SWOP-certified proof with your digital submission. If e-mailing artwork, then send the proof in a separate package in the mail.

BIND-IN CARDS AND INSERTS:
All bind-in cards and inserts are jogged to the head. All bind-in cards and inserts must have 1/8” trim beyond the crop mark area of the Head, Foot, Gutter and Face of the advertisement. Perforations must be 3/8” from gutter.

All live copy should be no closer than ¼” from the trim.

For inserts, 70# coated stock is the minimum weight and 110# coated stock is the maximum.

POSTAL REQUIREMENTS OF BUSINESS REPLY CARDS:
Final size of all BRCs must be 4 ¼” h x 6” w.
Minimum paper weight is 7 pt.
Recommended stock is 75# hibulk. It meets the requirements set forth by the USPS for reply cards.

Publisher is not responsible for any errors in reproduction if artwork is not provided according to the above specifications.
