**Poster Session XIII**
4:00 PM - 5:00 PM  
APS Exhibit Hall A

**Coffee Break**
8:30 AM - 9:00 AM  
APS Exhibit Hall A

**Poster Session VIII**
8:30 AM - 9:30 AM  
APS Exhibit Hall A 
(Setup 8:15 AM - 8:30 AM)

**Invited Address**
9:00 AM - 9:50 AM  
Virginia Suite A

An Integrative Theory of Numerical Development
Robert S. Siegler, Carnegie Mellon University 
(Developmental)

**Society for the Teaching of Psychology**
9:00 AM - 9:50 AM  
Coolidge

What Intelligence Tests Miss: The Psychology of Rational Thought
Keith E. Stanovich, University of Toronto, Canada
(General)

**APS Student Caucus**
9:00 AM - 10:20 AM  
APS Exhibit Hall A - Events Area

RISE Award Addresses
Chair: Kris Gunawan, University of Nevada, Las Vegas 
(General)

Presentations:
David R. Kille, University of Waterloo, Canada
Taralee Hamner, Georgia State University
Jennifer C. Duckworth, Indiana University
Megan E. Sutter, Virginia Commonwealth University

Invited Symposium

9:00 AM - 10:20 AM

Wilson A

Paul Meehl's Legacy
Chair: Scott O. Lilienfeld, Emory University

In this symposium, four eminent speakers will examine Paul Meehl's legacy for clinical psychology and scientific thinking with a particular focus on the implications of his work for psychiatric diagnosis, the etiology of psychopathology, philosophy of science, psychometrics, and prediction. The speakers will also explore how future research will extend Meehl's thinking in novel directions. (Clinical)

Presentations:

Kenneth Seedman Kendler, Virginia Commonwealth University
Denny Borsboom, University of Amsterdam, The Netherlands
Howard N. Garb, Wilford Hall Ambulatory Surgical Center
Robert F. Krueger, University of Minnesota

Co-sponsored by APS and the Psychometric Society.

1.5 CE Credits available to psychologists (see page 17 of program).

Invited Symposium

9:00 AM - 10:20 AM

Harding

Good Soldiers and Good Samaritans: Organizational Citizenship Behavior and Its Relevance to Helping Prosocial Behavior
Chair: Reeshad S. Dalal, George Mason University

(Industrial/Organizational)

Presentations:

Nichelle C. Carpenter, University of Illinois at Urbana-Champaign
Jaclyn Jensen, DePaul University
Philip Podsakoff, Indiana University, Bloomington

Invited Symposium

9:00 AM - 10:20 AM

Maryland Suite A

The Scope and Limits of Chomsky's Contribution to the Study of Language
Chair: Arnaud Rey, Centre National de la Recherche Scientifique and Aix-Marseille University, France

(Cognitive)

Presentations:

Edward Gibson, Massachusetts Institute of Technology
Colin Phillips, University of Maryland, College Park

Invited Symposium

9:00 AM - 10:20 AM

Virginia Suite B

Undergraduate Education at the NSF: An Underutilized Source of Funding for Teaching and Research in Psychology
Chair: Dwight A. Krehbiel, Bethel College

(General)

Presentations:

Maureen Erber, Northeastern Illinois University
Harold H. Greene, University of Detroit, Mercy
Paul Moes, Calvin College
Myles Boylan, National Science Foundation

Invited Symposium
9:00 AM - 10:20 AM
Chair: Barbara L. Fredrickson, University of North Carolina at Chapel Hill
(Peopleality/Emotion)

Presentations:
Adam K. Anderson, University of Toronto, Canada
Sara B. Algoe, University of North Carolina at Chapel Hill
Laura D. Kubzansky, Harvard University
Barbara L. Fredrickson, University of North Carolina at Chapel Hill

Fredrickson will sign copies of her books immediately following this program.

Invited Symposium
9:00 AM - 10:20 AM
Bringing Psychological Science to Life With Mobile Measurement
Chair: Tamlin S. Conner, University of Otago, New Zealand
Chair: Matthias R. Mehl, University of Arizona (Methodology)

Presentations:
Tamlin S. Conner, University of Otago, New Zealand
Joshua M. Smyth, The Pennsylvania State University
Matthias R. Mehl, University of Arizona
Andrew T. Campbell, Dartmouth University

Invited Symposium
9:00 AM - 10:20 AM
From Brain Networks to Cognitive Function
Chair: Olaf Sporns, Indiana University, Bloomington (Biological/Neuroscience)

Presentations:
Paul Laurienti, Wake Forest University
Barry Horwitz, National Institute on Deafness and Other Communication Disorders
Luiz Pessoa, University of Maryland, College Park
A. Randal McIntosh, Rotman Research Institute and University of Toronto, Canada

Invited Symposium
9:00 AM - 10:20 AM
Implicit Cognitions as Modifiable Targets in Behavioral Interventions
Chair: Daniel Falk, National Institute on Alcohol Abuse and Alcoholism
Co-Organizers: Daniel Falk, Ellen Witt, and Robert Huebner, National Institute on Alcohol Abuse and Alcoholism (General)

Presentations:
Henry Yin, Duke University
Mark T. Fillmore, University of Kentucky
Bethany A. Teachman, University of Virginia
Reinout W. Wiers, University of Amsterdam, The Netherlands
Discussant: Kenneth J. Sher, University of Missouri-Columbia

Society for the Teaching of Psychology
10:00 AM - 10:50 AM
How Neuroscience Will Contribute to Teaching Practice
Daniel Willingham, University of Virginia (General)
Willingham will sign copies of his books immediately following this program.

Poster Session IX
10:00 AM - 11:00 AM
APS Exhibit Hall A
(Setup 9:45 AM - 10:00 AM)

Society for the Teaching of Psychology
10:00 AM - 11:20 AM
Corporal Punishment, Aggression, and Culture
Chair: Jennifer E. Lansford, Duke University (Developmental)

Presentations:
Jennifer E. Lansford, Duke University
Murray A. Straus, University of New Hampshire
Sombat Tapanya, Chiang Mai University, Thailand
George W. Holden, Southern Methodist University

For posters and full program details, use the convention app “APS2013” or visit www.psychologicalscience.org/convention.
Invited Talk
10:30 AM - 10:55 AM
**Verbal Working Memory and the Evolutionary Expansion of Speech and Language**
Francisco Aboitiz, Pontificia Universidad Católica de Chile
(Cognitive)

Invited Address
10:30 AM - 11:20 AM
**On Voodoo Dolls and Cinnamon Rolls: Testing a Novel Metatheory of Behavior in the Domains of Intimate Partner Violence and Eating Behavior**
Eli J. Finkel, Northwestern University
(Social)

Invited Address
10:30 AM - 11:20 AM
**Whatever Happened to the Conscious Mind?**
Edwin A. Locke, University of Maryland, College Park
(General)

Invited Address
10:30 AM - 11:20 AM
**Integrative Mapping of the Active Brain**
Charles E. Schroeder, The Nathan S. Kline Institute for Psychiatric Research and Columbia University
(Biological/Neuroscience)

Invited Symposium
10:30 AM - 11:50 AM
**Reflections on Rumination: In Memory of Susan K. Nolen-Hoeksema**
Chair: Ed Watkins, University of Exeter, United Kingdom
This symposium commemorates the immense contribution of Professor Susan Nolen-Hoeksema to our field, following her tragic death in January. Susan conducted groundbreaking work into understanding gender differences in depression and single-handedly initiated the study of depressive rumination. This symposium honours Susan with talks from her collaborators and past students: Ed Watkins on Susan's work and its legacy; Blair Wisco on rumination and psychological distance; Amelia Aldao on rumination within the context of emotion regulation; Lori Hilt on cognitive control in high and low ruminators; Katie McLaughlin on stressful life events and their influence on rumination. Finally, James Gross will act as discussant. (Clinical)

Presentations:
- Ed Watkins, University of Exeter, United Kingdom
- Katie A. McLaughlin, Harvard University
- Lori M. Hilt, Lawrence University
- Blair E. Wisco, Yale University
- Amelia Aldao, The Ohio State University

Discussant: James J. Gross, Stanford University

1.5 CE Credits available to psychologists (see page 17 of program).

Invited Symposium
10:30 AM - 11:50 AM
**Personality, Emotion, and Health**
Chair: Wendy Berry Mendes, University of California, San Francisco
(Personality/Emotion)

Presentations:
- Sheldon Cohen, Carnegie Mellon University
- Wendy Johnson, University of Edinburgh, Scotland, United Kingdom
- Jerry M. Suls, University of Iowa
- Laura D. Kubzansky, Harvard University

Discussant: Laura A. King, University of Missouri-Columbia

Poster Check

#aps2013dc
### Invited Symposium

**10:30 AM - 11:50 AM**  
**Washington 2**

**Causal Inference in Psychological Science: Recent Advances and Future Directions**

Chair: Richard Emsley, The University of Manchester, United Kingdom  
(Methodology)

**Presentations:**
- Richard Emsley, The University of Manchester, United Kingdom
- Tom Loeys, Universiteit Gent, Belgium
- Elizabeth A. Stuart, Johns Hopkins Bloomberg School of Public Health

### Invited Symposium

**10:30 AM - 12:20 PM**  
**Harding**

**Tribute to J. Richard Hackman: So There is an ‘I’ in Teams…and a ‘We’… and a ‘Circumstance’**

Chair: Suzanne T. Bell, DePaul University  
James McKeen Catell Fellow Award winner J. Richard Hackman's research has profoundly influenced our understanding of organizational teams. As a tribute to his bracketing notion (2003), top team scholars present research on attributes of team members, teams, and the team’s context that shape and constrain team behavior. How Hackman's work inspired and will continue to influence research in these areas is discussed.  
(Industrial/Organizational)

**Presentations:**
- Stephen E. Humphrey, The Pennsylvania State University
- Anita Woolley, Carnegie Mellon University
- John Mathieu, University of Connecticut
- Ruth Wageman, Harvard University

**Discussant:** J. Richard Hackman, Harvard University

APS notes with great sadness the passing of J. Richard Hackman, on January 8, 2013.

### Invited Talk

**11:00 AM - 11:25 AM**  
**Maryland Suite A**

**Learning by Chunking**

Fernand R. Gobet, Brunel University, United Kingdom  
(Cognitive)

### Society for the Teaching of Psychology

**11:00 AM - 12:20 PM**  
**Coolidge**

**How to Teach Personality Science: Recommendations From a Personality Psychologist**

Laura A. King, University of Missouri-Columbia  
(General)

### APS Student Caucus

**11:00 AM - 12:20 PM**  
**APS Exhibit Hall A - Events Area**

**Student Research Award Addresses**

Chair: Ian Hussey, National University of Ireland, Maynooth  
(General)

**Presentations:**
- Amber Turner, Virginia Polytechnic Institute & State University
- Katrina Jongman-Sereno, Duke University
- Joana Vieira, University of Porto, Portugal
- Kristen A. Soforic, North Central College

### Invited Talk

**11:30 AM - 11:55 AM**  
**Maryland Suite A**

**The Interaction of Neural, Behavioral, and Genetic Mechanisms Underlying Creativity and Discovery**

Kevin N. Dunbar, University of Maryland, College Park  
(Cognitive)

---

Challenges and Successes in Dissemination of Evidence-Based Treatments for Posttraumatic Stress
Lessons Learned From Prolonged Exposure Therapy for PTSD

“Since the time of World War I, researchers have consistently documented stress reactions to traumatic events, including war, disaster, rape, accidents, and other traumatic events. Consequently, over the past century, there has been an evolution of attempts to ameliorate the psychological effects of traumatic experiences, with a more recent focus on posttraumatic stress disorder. We now have treatments that can efficaciously treat PTSD in most people. The next major step is to explore how to disseminate these evidence-based treatments in real-world settings.”

Edna B. Foa
University of Pennsylvania

Seth J. Gillihan
University of Pennsylvania

Richard A. Bryant
University of New South Wales, Australia

www.psychologicalscience.org
Cross-Cutting Theme Program

Biological Bases of Social Behavior

12:30 PM - 3:40 PM
Thurgood Marshall Ballroom West

In response to recent advances in social neuroscience (broadly construed), this theme program speaks to the various ways that basic biological functions shape and underlie social behavior. The speakers will explore how an understanding of neuroscience, physiology, genetics, and endocrinology can foster a fuller, more consistent understanding of social behavior and of the person.

12:30 PM - 1:05 PM
Social Isolation
John T. Cacioppo, University of Chicago

Social species, by definition, form organizations that extend beyond the individual. These structures evolved hand in hand with behavioral, neural, hormonal, cellular, and genetic mechanisms to support them. Social isolation represents a lens through which to investigate these behavioral, neural, hormonal, cellular, and genetic mechanisms.

1:10 PM - 1:40 PM
How Social-Affective Neuroscience Contributes to Social-Affective Psychology
Eddie Harmon-Jones, The University of New South Wales, Australia

Social-affective neuroscience contributes to theory and research in social-affective psychology in multiple ways. In this talk, I will demonstrate how research on conceptual issues in social-affective neuroscience triggered lines of research on conceptual issues in social-affective psychology that did not (or need not) include neuroscience measures.

1:45 PM - 2:15 PM
The (Pro) Social Effects of Oxytocin in Humans
Jennifer A. Bartz, McGill University, Canada

The “love hormone” oxytocin has been touted for its pro-social effects in humans. Empirical work, however, reveals that oxytocin manipulations can result in both pro- and anti-social behavior depending on the person and/or context. In this talk, I will discuss how this variability may shed light on the mechanisms by which oxytocin modulates interpersonal processes in humans, as well as our understanding of what it means to be prosocial.

2:35 PM - 3:05 PM
Cultural Neuroscience: Connecting Culture, Brain, and Genes
Shinobu Kitayama, University of Michigan

Cultural beliefs and practices may influence brain mechanisms through plastic modification of neural connectivity, gene expression, and gene selection. By connecting culture, brain, and genes, this hypothesis has the potential of overcoming the traditional nature-nurture dichotomy. I will summarize available evidence for this emerging field and suggest promising future directions.

3:10 PM - 3:40 PM
How to (De)Humanize Another Person: New Data From Fundamental Dimensions of Social Cognition
Susan T. Fiske, Princeton University

Building blocks of social cognition — perceived warmth/trustworthiness and status/competence — have shown characteristic neural and muscular signatures, in keeping with their apparent universality. New data focus on groups seen as allies, but lower and higher status, and how we respond accordingly.

Fiske will sign copies of her books immediately following this cross-cutting theme program.

Biological Bases of Social Behavior Posters
(Poster Session XIII)

4:00 PM - 5:00 PM
APS Exhibit Hall A
(Setup 3:45 PM - 4:00 PM)
Poster Session X
11:30 AM - 12:30 PM  APS Exhibit Hall A
(Setup 11:15 AM - 11:30 AM)

Invited Address
11:30 AM - 12:20 PM  Washington 3
What’s It Worth? Orbital Prefrontal Cortex Contributions to Reward-Based Decision Making
Elisabeth A. Murray, National Institute of Mental Health (Biological/Neuroscience)

Invited Address
12:30 PM - 1:20 PM  Virginia Suite A
Social Relations: A Lifespan Developmental Perspective
Toni C. Antonucci, University of Michigan (Developmental)

Invited Symposium
12:30 PM - 1:50 PM  Thurgood Marshall Ballroom South
Stigma and Health
Chair: Brenda Major, University of California, Santa Barbara (Social)
Presentations:
Bruce G. Link, Columbia University
John F. Dovidio, Yale University
Laura Smart Richman, Duke University (Cognitive)

Invited Talk
1:00 PM - 1:25 PM  Maryland Suite A
The Psychology of Decisions From Experience
Ralph Hertwig, Max Planck Institute for Human Development, Germany (Cognitive)

Come Meet Us!
1:00 PM - 1:30 PM  APS Exhibit Hall A - Events Area

### Invited Talk

**Gender Differences and Similarities Along the STEM Career Pipeline**

Debra A. Major, *Old Dominion University* (Industrial/Organizational)

**Supporting Soldiers: Applied Research in the US Army**

Paul D. Bliese, *Center for Military Psychiatry and Neuroscience, Walter Reed Army Institute of Research* (Industrial/Organizational)

---

### Invited Address

**Communicating Social Science Research to the Public and Policymakers, Even When They Don’t Want to Listen**

Elizabeth T. Gershoff, *University of Texas at Austin* (Developmental)

**Disseminating Evidence-Based Treatments for PTSD Within Systems and Across Countries: Can Current Treatments Be Applied to Mass Traumas**

Edna B. Foa, *University of Pennsylvania* (Clinical)

---

### Invited Symposium

**(Top-)Models of Working Memory**

Chair: Valérie Camos, *Université de Fribourg, Switzerland* (Cognitive)

Presentations:

- Pierre Barrouillet, *Université de Genève, Switzerland*
- Nelson Cowan, *University of Missouri-Columbia*
- Randall W. Engle, *Georgia Institute of Technology*

**‘Why Do We Differ?’ The Multiple Applications of Twin Studies in Psychological Science**

Chair: Tinca J.C. Polderman, *Vrije Universiteit, Amsterdam, The Netherlands* (Methodology)

Presentations:

- Tinca J.C. Polderman, *Vrije Universiteit, Amsterdam, The Netherlands*
- Christopher R. Beam, *University of Virginia*
- Marleen de Moor, *Vrije Universiteit, Amsterdam, The Netherlands*
- Gary Lewis, *University of Stirling, Scotland, United Kingdom*

**Why Those With Low Self-esteem Struggle With Relationships**

Margaret S. Clark, *Yale University* (Personality/Emotion)

**Personality in Personnel Selection: Army Tier One Performance Screen**

Tonia Heffner, *U.S. Army Research Institute* (Industrial/Organizational)

For posters and full program details, use the convention app "APS2013" or visit www.psychologicalscience.org/convention.
Humans differ. Some are taller than others; some are shorter. Most are right-handed, but some are left-handed. A minority have a mutation that leads to their second toe being longer than their first (a Morton’s toe); a minority have a mutation that leads to their having blue eyes rather than brown. A minority can perceive musical pitch absolutely; a minority cannot perceive color distinctions vibrantly. Most humans read with their eyes, but some read with their fingertips. A majority communicate through speaking and listening, but a minority communicate through signing. In the decade following the advent of research-based neuroimaging, researchers’ sights were set on mapping general principles of common phenomena. But soon, many researchers turned their magnets toward identifying atypical neural function and structure. How should we view such diversity?

Meet the Band

Parthenon Huxley, Recording artist, Singer/Songwriter, Guitarist, Producer, Lecturer, Teacher
