

# Much More Online

September 30, 2020

## [Communicating Psychological Science with the Public](#)

This four-part interview series provides firsthand tips from experts in the field on ways to communicate psychological science more effectively through opinion pieces, podcasts, and blogs.

## [APS Student and Early-Career Webinar Series](#)

This free series focuses on networking, peer review, online research, and more. Register for upcoming sessions, and view recordings and summaries of any you missed.

## [Schooling Is Critical for Cognitive Health Throughout Life](#)

Education provides little protection against the onset of cognitive declines but can boost cognitive skills.  
(August 10)

## [Your In-Laws' History of Drinking Problems Could Lead to Alcohol Issues of Your Own](#)

A new study finds marriage to a spouse who grew up exposed to parental alcohol misuse increases a

person's likelihood of developing a drinking problem. (*August 20*)

### [Examining Preferences for Suffixes and Prefixes Across Languages](#)

Although speakers of English and other Western languages prefer using suffixes more than prefixes, a new study reveals that this preference is not as universal as once thought. (*August 27*)

### [Stemming the Spread of Misinformation on Social Media](#)

A simple “nudge” encourages people to share more truthful COVID-19 content online. (*July 2*)
