

Facets of Funding: U.S. National Science Foundation Graduate Research Fellowship Program

August 25, 2022

Join this APS webinar about the [National Science Foundation's Graduate Research Fellowship Program \(GRFP\)](#), which supports individuals in STEM disciplines who are pursuing research-based master's and doctoral degrees at accredited U.S. institutions. The five-year fellowship includes three years of financial support including an annual stipend of \$37,000. NSF has a strong commitment to diversity and actively encourages women, persons who are members of groups historically underrepresented in STEM, persons with disabilities, veterans, and undergraduate seniors to apply.

This webinar will provide the audience a brief overview of the GRFP, including its goal, eligibility requirements, application process, and timeline. The last part of the session will be reserved for Q&A.

Speaker: Jong-on Hahm, National Science Foundation

Who should attend: undergraduate and graduate-level students based in the U.S., and those who mentor or advise such students
